TELL-A-FAULT

The Troubleshooter's Troubleshooting Service

TELL-A-FAULT is a completely new troubleshooting service for electronics technicians. Nothing like it has ever been attempted in the servicing industry. *It is practical information for the practical man.* No theory!

In addition to today's TV problems, the lifting of the TV freeze — the contemplated increase in radiated power from TV stations — the approach of UHF — all will combine to make the daily life of the TV service technician more complicated. Let TELL-A-FAULT relieve you of this burden. Let experts work for you!

Specifically, TELL-A-FAULT deals with the troubleshooting (symptoms and cures) of all types of television receivers — also radio receivers, record changers and recorders. Special emphasis, however, is given to television.

TELL-A-FAULT is a quadruple-threat service consisting of (1) time-saving, pictorial, symptom and cure sheets, (2) circuit guides, (3) servicing-technique short cuts, and (4) the usage of all sorts of test equipment. All information is practical. It is developed by working with and on everyday receivers and other equipment, just like those with which you have had trouble.

Working under the same conditions you work under, the Rider service laboratory analyzes receiver symptoms and determines the faults and cures. It is these analyses and cures that are available to you. *You profit by the experience of experts* who are working daily in a service clinic to assist you. This is the reason TELL-A-FAULT will save you hours and many dollars.

Write to John F. Rider for complete information.

NOTE:

1. The last 30 pages of TV Volume 9 are devoted to manufacturer-authorized service hints and the latest production changes for television receiver models on the market. The information on these "Changes Pages" is arranged for convenient separation into individual cards, otherwise known as Handies, suitable for filing in a 3 x 5 inch card file. Typical of Rider Manual material, the information contained on each Handy is accurate and factory tested.

   In this Volume 9 Index the letter, "C", appearing before the TV Volume and page number, refers to the "Changes" section.

2. Service data on record changers referred to in this Volume 9 Index appear on pages located in the rear portion of TV Volume 9.

COMPLETE INDEX

FOR

TV VOLUMES

1, 2, 3, 4, 5, 6, 7, and 8

(Refer to previous section for Index to TV Volume 9.)

JOHN F. RIDER PUBLISHER, INC.

480 Canal Street New York 13, N. Y.

NOTE:

In the last section of each of TV Volumes 1 through 8 there are "Changes Pages" devoted to manufacturer-authorized TV service hints and production changes. In this index for TV Volumes 1 through 8, the letter, "C", appearing before a TV Volume and page number, refers to the aforementioned "Changes" section.
